

VISHAL TYAGI

Ghaziabad, Uttar Pradesh, India | +91 8433016689 | vishal.tyagi14oct@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building MERN applications using MongoDB, Express.js, React.js, and Node.js. Experienced in REST API development, JWT authentication, responsive UI development, Git/GitHub, and deployment. Completed software testing internship involving 400+ test cases and 80+ bug reports, bringing a quality-focused approach to software development.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, HTML5, CSS3

Frontend: React.js, Redux, Context API, Tailwind CSS, Material UI (MUI)

Backend: Node.js, Express.js, REST APIs, Socket.IO

Database: MongoDB, Mongoose, MongoDB GridFS

Authentication: JWT, Authentication & Authorization

Tools & Deployment: Git, GitHub, Vercel, Render

Testing: Manual Testing, Functional Testing, Regression Testing, Bug Reporting, Retesting

PROJECTS

MERN Blog Platform | 2026 | [Live Demo](#) | [GitHub](#)

- Built and deployed a full-stack blogging platform using React.js, Node.js, Express.js, and MongoDB, implementing CRUD operations for blog posts and comments.
- Implemented JWT-based authentication and authorization with protected routes and user-specific functionality.
- Integrated Multer and MongoDB GridFS for handling and storing uploaded blog images.
- Developed responsive interfaces using Material UI, React Context API, and reusable components.
- Deployed the frontend and backend using Vercel and Render, resolving SPA routing and production deployment issues.

Real-Time Chat Application | Mar 2026 – Apr 2026 | [Live Demo](#) | [GitHub](#)

- Developed a real-time chat application using Node.js, Express.js, Socket.IO, MongoDB, EJS, and client-server socket communication.
- Tested real-time messaging with 10–12 concurrent users exchanging messages instantly.
- Built a responsive chat interface and implemented reliable real-time message delivery through WebSockets.

Real-Time Weather App | Jul 2026 | [Live Demo](#) | [GitHub](#)

- Built a weather forecasting application using React.js and the OpenWeather API with responsive UI.
- Developed a custom useDebounce hook to reduce redundant API requests during search input.
- Created a reusable useAxios hook for centralized API/data fetching logic.

WORK EXPERIENCE

Software Testing Intern | R Cube Green Technology | Virtual | May 2026 – Jul 2026

- Executed 400+ manual test cases across Student Management, Attendance, Examination & Results, and User Authentication modules of the AcadShree ERP web and mobile application.
- Identified and logged 80–120 bugs with detailed reproduction steps and severity classification, achieving an 80–90% valid bug confirmation rate.
- Conducted fix verification and regression testing across sequential application releases (v0.0.3 → v0.0.4), confirming bug resolutions before sign-off.
- Documented testing and verification results in structured reports for release validation.

Web Developer Intern – Training | Netcamp Solutions | Virtual | Feb 2026 – Mar 2026

- Completed structured web development training covering HTML5, CSS3, JavaScript, responsive design, and functional web page development.
- Built responsive UI components using HTML5 and CSS3 through hands-on implementation and independent practice.

EDUCATION

B.Tech – Computer Science & Engineering | Raj Kumar Goel Institute of Technology (RKGIT), Ghaziabad | 2024 – 2028

Senior Secondary (XII), CBSE – Science | 2024 | 77.00%

Secondary (X), CBSE | 2022 | 82.00%

TRAINING & ACTIVITIES

- Web Development Using HTML | Feb 2026 – Mar 2026
- Participated in Prompt Relay Event, demonstrating problem-solving and prompt engineering skills.
